

Maximum pleasure from Jacuzzi® professional wellness. Enjoy!

Enjoy the professional hot tub ideal for hotels, gyms and spas.

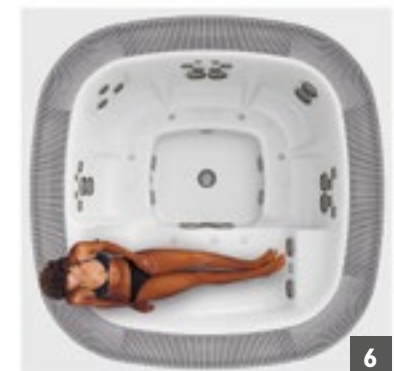

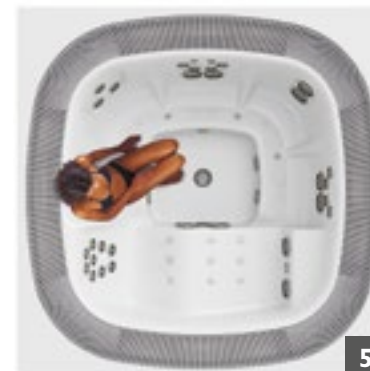

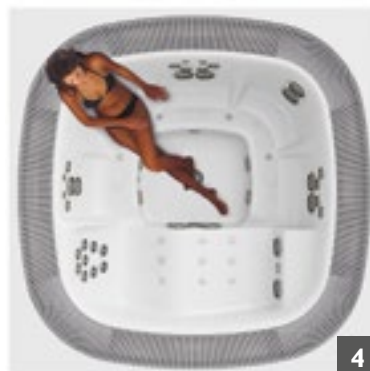

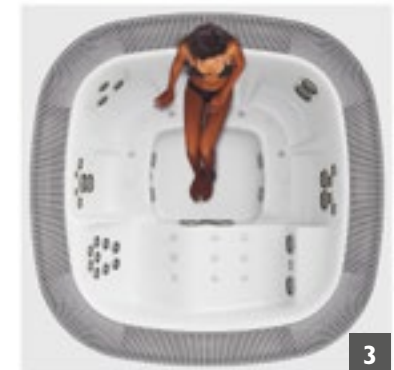

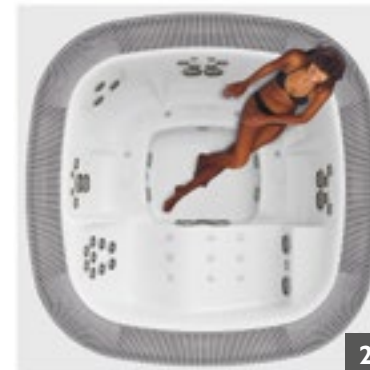

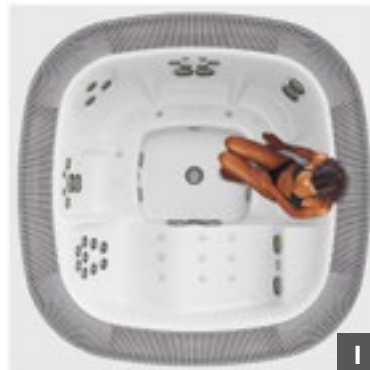

Ideal for intensive use, it is designed for small to medium sized hotels and day spas that offer wet/heat experiences. Fuss free installation and simple to use, Enjoy offers all the prestige and exclusivity of the genuine Jacuzzi® brand. Available as a built in hot tub, with plenty of room thanks to clever ergonomics and the use of an overflow grid, you will find that Enjoy expresses the ultimate in contemporary design in a perfect synthesis of uniqueness and functionality.

ENJOY: TAKE THE PATH TO 5 STAR WELLNESS

The 6 seats have been designed to deliver the genuine Jacuzzi® wellness path involving all the muscles and ensuring maximum effectiveness.

1. The hydromassage of the entrance position activates circulation and lightens the lower joints.
2. A gentle massage of the back, especially the shoulders and lumbar area stimulates blood circulation and loosens the joints.
3. The hydromassage here becomes more intense and energetic. The muscles are worked, circulation is stimulated, the skin is massaged by the rotating flow of the jets.
4. Hydromassage at its maximum force: all of the body is involved. This intermediate stage is ideal for dissolving stiffness and relaxing the muscles.
5. Now the massage is more soft and modulated, the muscles are more relaxed, fatigue disappears.
6. This is the moment of total relaxation: the lounge seat. A double row of delicate jets massage the whole body as fingers of water. The blower caresses hamstrings and calves, while the foot jet invigorates feet and legs.

DESIGN

- Sized to accommodate up to 6 people comfortably seated in their own personal seat.
- The compensation tank is conveniently available in a low version, enabling installation of the spa and tank at the same level.
- The overflow grid blends with the frame to create an elegant, seamless aesthetic.

HEALTH

- The 6 seats allow a path to wellness.
- All jets deliver a perfect mix of air and water and are positioned to ensure maximum effectiveness of the Jacuzzi® hydromassage within each seat.

PERFORMANCE

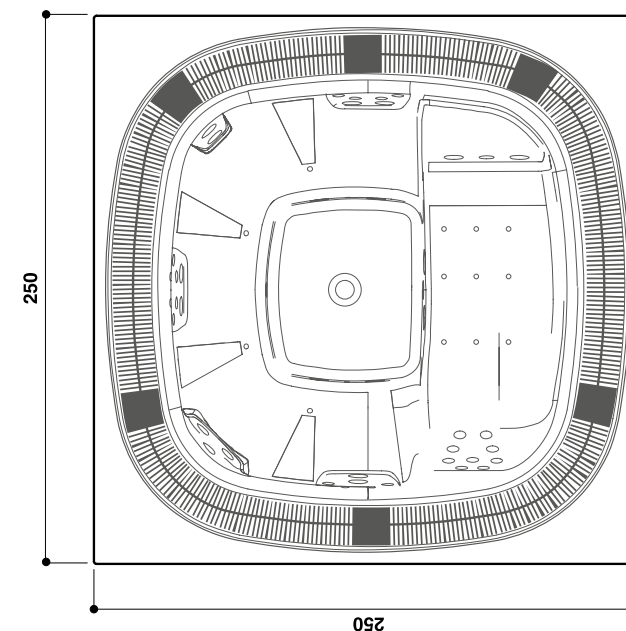

- Enjoy can be supplied with a spa pack making it suitable for public use, however a single phase spa pack is also available for residential use.
- Upgrade to Top version for optimum jet volume and additional blowers and aromatherapy.

PLEASURE

- The exclusive interior ergonomics provides optimal comfort and personal space, even when all the seats are occupied.
- The spa is also equipped with Multicolor Light System and offers the aromatherapy feature to ensure maximum relaxation.
